To Blood Pressure Check at ACP note

Leslie Janine Bauer, NP

Phil G Rice

04/10/2020

Patient requested that I go to the first floor with him to check BP manually and compare it with BP machine next to pharmacy.

Requested that management follow-up regarding the large discrepancy.

Machine readings were as follows at 1422:

Left Arm: 163/94

Left Arm: 156/87

HR: 93

Manual readings (using large cuff) downstairs at 1422:

Right Arm: 138/72

Right Arm: 130/68

HR: 86

Left Arm: 115/68

See vitals for BP checks in the room 26 using large wall cuff at 1442.

Route chart to Melissa Love department Administrator & Bastow.

Jaci J,

Senior Lead Registered Nurse, BSN
