

Plan: Managed Virtually/Resolved

Return Precautions: If your symptoms are not improving or getting worse, please let us know, seek additional care, or go to the emergency room or call 911 if necessary

SUBJECTIVE/OBJECTIVE:

HPI

Doing well overall since last office visit

Has had significant improvement with LE edema since cutting back on salt, using compression, lasix use and nightly elevation and feels that this is better than it has been in years

ECHO reviewed is overall within normal limits and I will confirm with cardiology re:

ROS

Physical Exam

BP Readings from Last 4 Encounters:

10/21/20 : 124/78

→ 10/20/20 : 135/80

09/30/20 : 120/60

09/18/20 : 124/60
